

AVLOCK INTERNATIONAL

ADVANCED RIVETING, LOCKBOLT AND STRUCTURAL FASTENING SOLUTIONS

Avlock International is a South African manufacturer and distributor of specialised riveting, lockbolt fastening systems, structural fasteners, and application tooling, supplying both the domestic market and a broad range of global destinations.

The business operates across four primary market divisions, structured to reflect application complexity and customer operating environments:

- * Heavy Engineering
- * Light Engineering, including Automotive
- * Hardware
- * Export
- * Packaging

This sectoral structure allows Avlock to maintain technical focus, application-specific support, and consistent delivery performance across diverse industrial requirements.

Ownership, Governance and Empowerment

Avlock International is structured with 44% black ownership and 56% management ownership. The company's empowerment partner is Mahogany Private Equity. This ownership model supports long-term operational continuity while ensuring meaningful participation aligned with South Africa's Broad-Based Black Economic Empowerment framework.

Avlock is recognised as a BBBEE Empowerment Company and holds a valid BBBEE certificate.

Quality, Safety and Environmental Management

Avlock operates within a disciplined management system environment and holds the following internationally recognised certifications:

- * **ISO 9001 Quality Management System**
- * **ISO 14001 Environmental Management System**
- * **ISO 45001 Occupational Health and Safety Management System**

These systems underpin manufacturing consistency, process control, regulatory compliance, and continuous improvement across all operations.

Avlock is authorised to apply the CE mark to qualifying equipment and tooling exported into European markets, confirming compliance with applicable European conformity requirements.

Manufacturing Capability

Manufacturing operations are based at Avlock's Boksburg facility, where the company operates two dedicated factories. These facilities manufacture:

- * **Breakstem rivets**
- * **Larger-diameter bolts**
- * **Specialised fastening systems**
- * **Proprietary application tooling**

The manufacturing environment supports both volume production and application-specific engineering requirements, enabling Avlock to deliver fastening solutions designed for performance, reliability, and repeatability in demanding industrial conditions.

OEM and Tier-One Supply Positioning

Avlock International is a South African manufacturer and distributor of specialised riveting, lockbolt fastening systems, structural fasteners, and application tooling, supplying both the domestic market and a broad range of global destinations.

International Footprint and Affiliations

Avlock exports its products to five European countries and Australia, and is a significant exporter to China. The company also maintains its own operating company in India, extending its international commercial and operational footprint.

Avlock has established affiliations with influential global principals, strengthening access to specialised technologies, technical collaboration, and international supply networks.
